The LC3 is an innovative integration of a brightness-adjustable floodlight and a powerful 4MP security camera, which enhances your home safety at all levels – even at night. Doubling as a sleek wall lamp, the LC3 fits into any household to light up dark places with remote smart controls. A security camera at its core, the LC3 features AI-powered person detection, active defense, and two-way communication to effectively watch over outdoor spaces such as patios, hallways, courtyards, and more.

Adjustable brightness with easy controls on the app

A better day begins with better vision.

Clear and colorful imaging, even at night

24/7 protection all around your property
